ORDER AND JUDGMENT

Before the Court is the joint motion of defendants City of Kansas City, Missouri and American Traffic Solutions, Inc. seeking dismissal of plaintiffs' first amended petition in the above matter. The Court has reviewed and appreciates the extensive and well-prepared submissions of the parties, which have included copies of recent appellate and trial court decisions examining the important issues raised by plaintiffs' first amended petition and defendants' motion.

This Court's decision is by no means the last word on these issues. Accordingly, the Court determines that an extended opinion explaining the bases for its ruling on defendants' motion would provide no meaningful benefit to either party, nor to any court which might review it. Suffice it to say, the Court finds the arguments set out in defendants' motion the most persuasive, and adopts them in coming to the conclusion that defendants' motion should be, and the same is hereby, **GRANTED**. Plaintiffs'

claims against defendants herein are hereby **DISMISSED WITH PREJUDICE**, at
plaintiffs' costs.

IT IS SO ORDERED.
